Executive Summary

In November 2014, the newly reauthorized Child Care and Development Block Grant (CCDBG) Act of 2014 was signed into law. This was the first revision to the Child Care and Development Fund (CCDF) Program since 1996. In order to receive CCDF funds, every state must conduct a market rate survey or use an alternative methodology to analyze whether child care subsidies adequately allow child care subsidy recipients equitable choice and access among child care providers. Each state is allowed to decide the design and method of the analysis. Though some states do create and conduct a survey, the market rate analysis in Illinois utilizes the Child Care Resource and Referral (CCR&R) administrative data. The administrative data is collected by local CCR&R agencies and maintained by the Illinois Network of Child Care Resource and Referral Agencies (INCCRRA). INCCRRA's provider database from December 31, 2022 was used for these analyses.

The Illinois Department of Human Services (IDHS) assistance rates are based upon the daily full-time price of child care for a given market. Inclusion in the market-rate analysis was limited to licensed providers accepting children on a full-time, part-time or both full-time and part-time basis, those currently providing care, those who provide year round or school year care, those who gave referral information, and those with valid child care rate data. The December 31, 2022 database contained records for 11,744 providers who were listed as both active and licensed to provide care. Of those, 4,299 (36.6%) of these providers met all of the criteria for inclusion in the market rate survey sample of licensed providers. Separate samples were drawn from the 4,299 licensed providers for providers serving children 6 weeks to 5 years old, providers serving children 6 to 12 years old in before and after school programs, and providers serving children 6 to 12 years old in summer care programs. The sample of providers caring for children 6 weeks to 5 years of age included 4,134 providers: 1,119 licensed child care centers, 2,431 licensed family child care providers, and 432 licensed group family home providers. The sample of providers caring for children 6 to 12 years old in before and after school programs included 2,567 providers: 648 licensed center child care providers, 1,606 licensed family child care providers, and 313 licensed group family home providers. The sample of providers caring for children 6 to 12 years old in summer programs included 1,171 providers: 382 licensed child care center providers, 677 licensed family child care providers, and 112 licensed group family home providers.¹

¹ See pg. 11 for a more complete discussion of how the sample was drawn

The Illinois Child Care Market

If a state is to use a market rate analysis to set child care subsidy rates, then the market rate survey must reflect “market realities”; however, additional factors must be considered including fluctuation in prices by age, the categories of child care, and/or other within state geographical variations.

In the state of Illinois, child care subsidy (assistance) rates are based upon four factors:

- **Geographic Market:** currently there are three geographically-defined subsidy tiers; Group IA, Group IB, and Group II.²
- **Age of child:** Infants and Toddlers (6 weeks-23 months), Twos (24-35 months), Preschool (36-71 months), and School-age (6-12 years).
- **Type of care:** Child Care Centers, Family Home Care Providers, and Family Group Home Providers.
- **Licensing status:** Licensed versus non-licensed.

Percentile Coverage of IDHS Child Care Assistance

In order to ensure that subsidy recipients have equal access to available child care the CCDF recommends that states provide subsidies at the 75th percentile of market rate. This means that within a local community and dependent on age and category of care rate variations, subsidy care recipients would be able to purchase 75 out of 100 available child care slots.

In the following tables each cell presents a different child care market as defined by license status, type of care setting, child age, and geographic region. The mean percentile across all counties within a reimbursement group is represented in each cell. The percentiles can range from 0.00, (the current IDHS child care assistance rate for the age group within a reimbursement group can buy no slots outright) to 100.00 (the current IDHS child care assistance rate is more than the price of any available child care slot in the market).

Based on these analyses, several generalizations can be made regarding the ability of the Illinois Child Care Assistance Program to cover child care prices within a given market. In most cases, assistance rates do not reach the 75th percentile as recommended by the CCDF. Assistance rates are more likely to reach 75th percentile coverage across age groups in Family Child Care and Family Child Care Group Homes. Typically, families within the rural Group II region have greater access to available child care slots than those in Group IB, and those in Group IB have greater access than those in Group IA. This report shows more instances where this statement is not true

² Group IA consists of 7 urban counties. Families in these counties who are eligible receive the highest child care assistance rates in the state. Group IB is comprised of 16 counties that have at least one urban area. All other counties in Illinois, which are primarily rural, make up Group II and received the lowest rates of assistance.

compared to past reports. Finally, assistance rates for school-age children in summer programs and school-age children in before and after school programs typically tend to exceed the 75th percentile.

Licensed Child Care Centers

For licensed child care centers, current IDHS child care assistance rates can purchase the following percentages of full-time slots in each geographic (county) CCAP reimbursement group:

Child Age Category	Group IA	Group IB	Group II
Infants and Toddlers (6 wks-23 mos)	36.1	62.3	76.6
Twos (24-35 mos)	31.8	51.3	73.0
Preschool (36-71 mos)	28.4	47.6	65.6

Licensed Family Child Care Homes

For licensed family child care providers, current IDHS child care assistance rates can purchase the following percentage of full-time slots in each geographic (county) CCAP reimbursement group:

Child Age Category	Group IA	Group IB	Group II
Infants and Toddlers (6 wks-23 mos)	60.5	79.9	70.3
Twos (24-35 mos)	59.3	70.0	68.5
Preschool (36-71 mos)	59.8	65.7	59.9

Licensed Family Child Care Group Homes

For licensed family child care group homes, current IDHS child care assistance rates can purchase the following percentage of full-time slots in each geographic (county) CCAP reimbursement group:

Child Age Category	Group IA	Group IB	Group II
Infants and Toddlers (6 wks-23 mos)	55.5	58.7	53.5
Twos (24-35 mos)	48.3	41.9	55.8
Preschool (36-71 mos)	44.8	36.2	43.0

School-Age Children

For licensed child care centers, current IDHS child care assistance rates can purchase the following percentages of slots for school-age children in each geographic (county) CCAP reimbursement group:

Child Age Category	Group IA	Group IB	Group II
Before/After School	59.2	83.0	82.7
Summer Programs	34.8	68.0	83.2

For licensed family child care providers, current IDHS child care assistance rates can purchase the following percentages of slots for school-age children in each geographic (county) CCAP reimbursement group:

Child Age Category	Group IA	Group IB	Group II
Before/After School	71.2	77.2	69.7
Summer Programs	58.3	70.5	54.2

For licensed family group home providers, current IDHS child care assistance rates can purchase the following percentages of slots for school-age children in each geographic (county) CCAP reimbursement group:

Child Age Category	Group IA	Group IB	Group II
Before/After School	60.4	64.3	70.9
Summer Programs	49.4	52.9	22.4

Introduction

Child care subsidies were introduced in 1988 as part of welfare reform legislation (in the form of the Family Support Act), employment legislation (in the Job Opportunities and Basic Skills (JOBS) program), and in the Transitional Child Care (TCC) program. Since then, the purchase of publicly funded child care services has been increasingly informed by a market-based perspective, a perspective reflected in and mandated by subsequent Federal legislation.

In 1996, the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) reformed federal programs that supported families. The Act unified three separate programs that provided assistance to families for child care. Collectively, these programs became the Child Care and Development Block Grant Program (CCDBG). In 2013, a Reauthorization of the 1996 CCDBG was proposed. The bill was signed into law in November 2014. This law was the first revision to the Child Care and Development Fund (CCDF) Program since 1996.

The newly reauthorized CCDBG significantly revised many aspects of the CCDF Program for States. Among these revisions included guidance on the way States should promote equitable opportunities for families and providers. CCDBG requires that a State's Lead Agency must conduct either a Market Rate Survey (MRS) or an ACF pre-approved alternative methodology, such as a cost estimation model. The Illinois Department of Human Services (IDHS) conducts a Market Rate Survey.

What is a Market Rate Survey?

At the core of the market-based approach to the setting of child care subsidies (child care assistance) are market rate surveys. A market rate survey measures the prices charged by providers and paid by parents in a given child care market. As such, market rate surveys only capture data on the *price* of child care, not on the *cost* of child care in a given market. The price of care is the fee per child paid by non-subsidized families for child care services or, when serving a family receiving assistance, the subsidy payment rate plus the family's co-payment. On the other hand, the cost of child care is the actual per-child cost of the program (including personnel, facilities, equipment, and supplies, for example) for providing child care services when all contributions are considered, including free rent, fundraising, or donated services. For a variety of reasons, cost of child care may actually exceed price.

Though some states create and conduct a survey, the market rate analysis in Illinois utilizes the Child Care Resource and Referral (CCR&R) administrative data. A market rate survey must, according to the CCDBG, take into consideration variations in market rates of child care services by geographic area, provider type, and age of child.

The Illinois Child Care Market

The following child care arrangements constitute the legal child care arrangements in Illinois for which child care assistance can be paid. They include those child care arrangements that are required to be licensed by the Illinois Department of Children and Family Services (IDCFS) and those that are license-exempt. To be licensed by IDCFS, centers and child care homes must meet specified standards regarding physical facilities, caregiver qualifications, and care of children. To receive IDHS child care payments, caregivers (providers) must be 18 or older and have a valid Social Security or FEIN number.

- **Licensed Child Care Center** - Care provided in a center-based location licensed by IDCFS' Office of Licensing. The center may be for-profit or not-for-profit.
- **License-Exempt Child Care Center** - Care provided in a center-based location that is exempt from licensing by IDCFS. These include programs operated by public or private elementary school systems, high schools or institutions of higher learning; programs conducted on federal government premises; and other programs recognized or registered with the Illinois State Board of Education, if children in the program are 3 years old or older.
- **Licensed Family Child Care Home** - Care provided in a home licensed by IDCFS where more than 3 and up to 12 unrelated children under the age of 12 may be cared for, including the provider's children. The actual number of children is determined by the ages of the children. The provider may serve the maximum of 12, which includes four school-age children, only if she or he has an assistant.
- **Licensed Family Child Care Group Home** - Care provided in a home licensed by IDCFS where no more than 16 unrelated children under the age of 12 may be cared for, including the provider's children. The actual number of children is determined by the ages of the children. The provider may serve the maximum of 16 only if she or he has an assistant and meets a number of other IDCFS requirements.
- **License-Exempt Child Care Home** - Care provided in a home exempt from licensing by IDCFS where no more than three unrelated children or a family of children under the age of 12 may be cared for, including the provider's children.
- **Relative Care** - Care provided by a relative, not including the child's parents.
- **In-Home Child Care** - Care provided in the home of the child.

The Illinois Market Rate Survey

This report presents information on the market rates providers are charging for providing child care, broken down by several of the factors suggested by CCDF rules (age, categories of care, and within state variations).

Table 1. Factors Considered in the Current Illinois Market Rate Survey

Factor	Categories of Care: Type of Provider	Licensed child care centers, Licensed family child care homes, Licensed family child care group homes
Factor	Child Age	Infants (6 weeks-14 months) and Toddlers (15-23 months) versus Twos (24-35 months) versus Preschoolers (36-59 months) and Fives (60-71 months); School-Age Children (6-12 years)
Factor	Within-State Variations	Counties, Service Delivery Areas

Methods

The majority of state market rate studies are conducted as surveys of representative samples of child care providers in that state. Another approach, which does not require an actual survey of providers, involves the analysis of existing Child Care Resource and Referral (CCR&R) administrative data. The market rate analyses described here represent the latter approach.³

While the majority of CCDF funds support child care assistance (subsidy) programs, CCDF requirements designate a minimum quality spending requirement. This means that there is a specific amount of federal funds that must be allocated to activities which support the improvement of child care quality. These activities include consumer education, referrals to child care programs, provider training, workforce development supports, and initiatives to improve program quality.

During the timeframe of this report, the minimum requirement was nine percent (9%). In addition to the minimum quality spending requirement, as of FFY17 States are required to spend three percent (3%) of funds for quality activities that relate to improving the quality of care for infants and toddlers. The Illinois Department of Human Services (IDHS) contracts with local child care resource and referral agencies (CCR&Rs) to provide these services to families, child care providers, and other community members. Additionally, the CCR&Rs administer child care subsidies through the Child Care Assistance Program (CCAP), which helps working families of lower income pay for child care.

³ For a discussion of the strengths and weaknesses of the use of CCR&R data for child care market rate studies, see Grobe, D., Weber, R.B., Pratt, C.C., and Emlen, A.C. (2003). *Market rate study guidebook: A guide to implementing a child care market rate study using child care resource & referral data*. Oregon Child Care Research Partnership.

Child Care Resource and Referral services in Illinois are provided by sixteen contracted local agencies, each with a uniquely defined service delivery area (SDA). Each SDA is made up of one or more Illinois counties with a given county wholly contained within an SDA. Together, all 16 agencies cover the 102 counties in Illinois (See map in Appendix A). Each CCR&R has one or more physical locations within its SDA; many agencies are housed in larger parent organizations such as colleges/universities, YWCAs, or other community agencies. All Illinois CCR&R agencies are members of the Illinois Network of Child Care Resource and Referral Agencies (INCCRRA) that supports them in their efforts. SDAs 3 and 4 were combined for this report.

Staff of each CCR&R use a common database management package, the Data Tracking Program (DTP), to collect and store information on child care providers offering care within the SDA and on parents seeking child care. Information about providers is matched against parents' child care needs to produce a listing of referrals for the parents seeking child care.

INCCRRA combines the provider data collected within each CCR&R to construct a statewide database of Illinois child care providers. The provider database contains information on child care centers and family child care homes licensed by IDCFS as well as those license-exempt centers and homes that choose to be listed with their local CCR&R. Regularly, IDCFS provides INCCRRA with a list of its licensees. Each CCR&R contacts or attempts to contact providers within its service area to determine if providers wish to be listed for referral in the database and to obtain detailed information and/or updated information. Provider records in the database receive a comprehensive update at least once per year, with additional updates occurring for specific data elements throughout the year. Data collected include:

- Basic demographic data including provider name, address, and telephone number
- Type of care
- License status
- Days and hours of care
- Number and ages of children served
- Rates by ages of children served

Each quarter, INCCRRA runs data quality assurance processes on the database, and any identified errors are resolved working with CCR&R staff. A clean data set is then prepared, archived, and used for reporting. For this market rate study, CCR&Rs staff updated provider rate data during the period of October 1 to December 31, 2022. This data set was then compiled by INCCRRA and submitted for this market rate analysis.

Licensed Providers: Children 6 Weeks to 5 Years Old

This section includes the analyses for providers of children 6 weeks⁴ to 5 years. An additional sample was drawn for providers caring for school-age children ages 6-12 years.⁵

Selection of the Market Rate Survey Sample

The December 31, 2022 INCCRRA provider database contained records for 11,744 active providers. The market rate sample was limited to providers who were:

- Licensed
- Actively providing care
- Provided updated rates
- Providing care on a full-time basis
- Providing care full-year or for the school year
- Providing care to children 6 weeks to 5 years
- Not providing “Special Categories” of care

Providers also needed to provide during the update:

- Current full-time rates for at least one age category for their primary service
- Licensed capacity (child care centers (CCC)) for at least one age group for their primary service, or
- Enrollment (for family child care (FCC)) for at least one age group for their primary service.

Of the 11,744 active providers, programs and the providers who were not actively providing care at the time of the market rate survey update (n = 219) and those who did not complete the survey or provide rates (n = 6,243) were removed from the sample.⁶ At this point, 5,282 providers were left in the sample of which 4,239 providers were licensed and made up our total sample. Table 2 demonstrates the reasons that providers did not provide current rates.

⁴ A licensed provider can only care for a child 6 weeks or older.

⁵ Providers can provide care for either age group or both age groups. The sample for 6 weeks to 5 years and the sample for school-aged children are not mutually exclusive.

⁶ “Active” providers refers to all providers listed on the database, while “actively providing care” includes just those providers that were currently providing care during the update period. As long as the provider remains licensed, they are considered active, even if they are temporarily not providing care.

Table 2: Number of Providers Completing the MRS Update but Not Reporting Rates (n = 172)

Reason For No Rate Data	Category Total	Percent
Free program to income-eligible	9	5.2%
Prefers parents to call for rates	128	74.4%
Charges variable rates	25	14.5%
No reason provided	10	5.8%

For the Market Rate Survey, assistance rates are based upon the daily full-time price of child care for the given child care market. As a result, we further selected only those active providers accepting children on a full-time (or both full and part-time) basis and those who provide care during the school-year or year round.⁷ Additionally, the sample was limited to those providers who gave valid enrollment/capacity data and valid rate information for at least one primary service so that slot availability could be determined. Outliers of rate data were removed from analysis (refer to Appendix D for a more detailed explanation). Finally, the sample was limited to those providers who worked more than 35 hours a week and who indicated that their service ran four or more days a week. This final sample includes 4,239 providers, which were further refined based on the analysis conducted.

Some Statistical Terminology

Mean – the average, calculated by adding all scores in a sample together and dividing by the number of scores.

Percentile – in a frequency distribution of numerical scores, the percentile of any specific score x is the percentage of scores out of the total number of scores that fall at or below x in value. For example, the 75th percentile in these analyses is the rate below which 75 percent of rates fall.

Median – the 50th percentile, the score that divides the distribution of scores in a sample in half, the score below which and above which 50% of all scores fall.

Confidence Interval – the range of values, based on the sample mean, that with a 95% probability, includes the population mean

⁷ Note: full-time and part time status is provided by DTP for each service record. Providers may have any number of services, but the primary service record was used for this analysis.

Licensed Child Care Centers

Table 3 represents the market rate sample of the 1,119 child care centers broken down by Illinois Child Care Resource and Referral (CCR&R) service delivery areas (SDA) and their capacities.

Table 3: Breakdown of Market Rate Sample by Illinois CCR&R Service Delivery Area

Service Delivery Area	Number of Providers	Column Percent	Total Licensed Capacity, 6 wks to 5 years	Percent of Total Licensed Capacity	Mean Per Provider Licensed Capacity 6 wks to 5 years
1	21	1.9%	1,985	2.3%	94.5
2	62	5.5%	5,493	6.3%	88.6
4	210	18.8%	20,189	23.1%	96.1
5	101	9.0%	7,618	8.7%	75.4
6	320	28.6%	20,517	23.5%	64.1
7	43	3.8%	2,986	3.4%	69.4
8	50	4.5%	4,033	4.6%	80.7
9	26	2.3%	2,439	2.8%	93.8
10	50	4.5%	4,098	4.7%	82.0
11	15	1.3%	898	1.0%	59.9
12	13	1.2%	843	1.0%	64.9
13	51	4.6%	4,285	4.9%	84.0
14	88	7.9%	7,232	8.3%	82.2
15	33	2.9%	2,125	2.4%	64.4
16	36	3.2%	2,493	2.9%	69.3
Illinois	1,119	100.0%	87,234	100.0%	78.0

Note: Table represents providers reporting rates for at least one 6 weeks to 5 years age category for their primary service.

Full-Time Daily Licensed Child Care Center Rates

Child care centers are allowed to provide full-time hourly, daily, weekly, and/or monthly rates for the DTP update. The market rate analysis utilizes full-time daily rates; however, if a full-time daily rate was not provided, then weekly rates were divided by the number of days a week a provider provided care, and/or monthly rates were divided by the number of days a month a provider worked, and/or hourly rates were multiplied by the number of hours a provider worked per service. If a provider gave more than one rate (weekly and monthly) then for the purpose of this analysis,

precedence was given first to weekly rates, then to monthly rates, and finally to hourly rates for a consistent measurement of rates.

Child capacity and child care rate information can be recorded on DTP for the following seven age groups:

1. Infants (6 weeks-14 months)
2. Toddlers (15-23 months)
3. Twos (24-35 months)
4. Preschoolers (36-59 months)
5. Fives/Kindergarteners (60-71 months)
6. Before/After School (6-12 years)
7. Summer/Holiday (6-12 years)

Table 4 represents licensed child care center rates for children 6 weeks to 5 years old for the state of Illinois. Child care centers in Illinois charge on average between \$47 and \$65 dollars a day for full-time care. Additionally, centers charge more for infants and younger children.

Table 4: Full-Time Daily Licensed Child Care Center per Slot Rates by DTP Age Categorization

Child Age Category	No. Pdrs	No. Slots	Mean	95% Conf Interval From	95% Conf Interval To	25th %ile	Med	75th %ile
Infants	888	10,966	\$64.73	\$64.62	\$64.84	\$55.00	\$64.00	\$74.00
Toddlers	964	13,402	\$62.37	\$62.27	\$62.47	\$54.00	\$64.00	\$70.00
Twos	1,023	16,083	\$55.23	\$55.13	\$55.33	\$46.00	\$51.00	\$64.40
Preschool	1,078	29,917	\$49.09	\$49.00	\$49.18	\$40.00	\$45.20	\$59.00
Fives	928	15,590	\$47.89	\$47.80	\$47.99	\$40.00	\$44.00	\$56.40

Child care markets are defined by specific geographical regions, age group, and type of care (family child care or center child care). Within the state of Illinois, child care markets are broken down into three reimbursement tiers represented by groups of counties with similar populations and makeups. Group IA consists of 7 urban counties: Cook, DeKalb, DuPage, Kane, Kendall, Lake, and McHenry. Families in these counties who are eligible receive the highest child care assistance rates in the state. Group IB is comprised of 16 counties spread throughout the state that have at least one urban area. These counties include: Boone, Champaign, Kankakee, Madison, McLean, Monroe, Ogle, Peoria, Rock Island, Sangamon, St. Clair, Tazewell, Whiteside, Will, Winnebago, and Woodford. Eligible families in these counties receive child care assistance below that of those families in Group IA but above the rates received by families who live in the counties

represented by Group II. All other counties in Illinois, which are primarily rural, make up Group II and received the lowest rates of child care assistance (see Appendix B for the Illinois child care assistance payment rates that were in effect at the time survey data was collected).

Table 5a and 5b represent full-time daily child care rates for licensed child care centers by county reimbursement group by age. Table 5a provides daily full-time market rates for licensed child care centers by the DTP age categories for children ages 5 and under. Table 5b provides the daily full-time market rates for licensed child care centers by the current IDHS 6 weeks to 5 year-old payment categories broken down into: 1) infants and toddlers (6 weeks-23 months), 2) two year-olds (24-35 months), and 3) preschoolers (36-71 months). Of the 102 counties in Illinois 85 counties in the database had child care centers that met all the requirements for inclusion in the market rate sample.

Table 5a: Full-Time Daily Licensed Child Care Center Per Slot Rates by County Reimbursement Group (IA, IB, or II) by DTP Age Categorization

County Group	Child Age Category	No. Pdrs	No. Slots	Mean	95% Conf Interval (FROM)	95% Conf Interval (TO)	25th %ile	Med	75th %ile	CCAP Max
IA	Infants (6wks-14mos)	455	5,382	\$73.25	\$73.12	\$73.38	\$64.00	\$70.00	\$83.00	\$64.00
IA	Toddlers (15-23mos)	505	7,036	\$69.92	\$69.80	\$70.04	\$64.00	\$67.00	\$77.14	\$64.00
IA	Twos (24-35mos)	531	8,449	\$62.12	\$62.00	\$62.25	\$51.00	\$58.00	\$72.00	\$51.00
IA	Preschoolers (36-59mos)	563	15,976	\$55.09	\$54.97	\$55.21	\$44.00	\$51.00	\$65.00	\$44.00
IA	Fives/Kindergarteners (60-71mos)	492	8,869	\$53.30	\$53.17	\$53.43	\$44.00	\$47.00	\$63.00	\$44.00
IB	Infants (6wks-14mos)	275	3,743	\$59.80	\$59.67	\$59.94	\$51.80	\$61.00	\$65.00	\$61.00
IB	Toddlers (15-23mos)	287	4,302	\$57.84	\$57.71	\$57.97	\$50.00	\$60.00	\$64.00	\$61.00

Additional Fees Charged

During the market rate update, child care centers caring for children 6 weeks to 5 years old were asked whether they had any additional fees that they regularly charged parents. Table 6 demonstrates fees of the 1,050 providers who responded, 77% of all centers charge a registration/application fee and 27% required an additional deposit.

Table 6: Child Care Center Providers Who Charge Additional Fees

Fees	N	Percent Total
Late Pick Up	864	82.3%
Registration/Application	803	76.8%
Field Trips	468	44.6%
Charges CCAP Difference	326	31.0%
Deposit Required	281	26.8%
Materials/Supplies	148	14.1%
Transportation	101	9.6%
Meal/Snack Fee	22	2.1%

Note: Providers could give more than one response which is why this will not equal 100%

Availability of Care During Non-Standard Hours

The availability of child care during evenings, overnight and on weekends is important as many families have non-traditional work schedules. For the market rate analysis, a provider could be represented by more than one service if they met all of the inclusion requirements. The market rate sample includes 1,119. Only 47 (4.2%) of the 1,119 providers were licensed to provide overnight care, which includes 34 (5.8%) providers in County Group IA, 10 (3.0%) providers in County Group IB, and 3 (1.5%) providers in County Group II. Only full-time services were examined for this analysis.

Licensed Family Child Care Homes

Licensed family child care homes were divided into those providers who had a group home license and those providers who did not have a license to provide group care. Licensed family child care providers may care for up to eight children including their own or up to 12 children with an assistant. This section of the market rate analysis covers the 2,431 licensed family child care providers who care for children 6 weeks to 5 years and do not have a group home license. Table 7 depicts this sample of licensed family child care home providers broken down by Child Care Resource and Referral (CCR&R) service delivery areas (SDA).

Table 7: Breakdown of Market Rate Sample by Illinois CCR&R Service Delivery Area: Licensed Family Child Care Providers

Service Delivery Area	Number of Providers	Column Percent	Total Licensed Capacity, 6 wks to 5 years	Percent of Total Licensed Capacity	Mean Per Provider Licensed Capacity 6 wks to 5 years
1	149	6.1%	988	6.9%	6.6
2	135	5.6%	913	6.4%	6.8

15	80	3.3%	541	3.8%	6.8
16	69	2.8%	478	3.3%	6.9
Illinois	2,431	100.0%	14,345	100.0%	5.9

Note: Table represents providers reporting rates for at least one 6 weeks to 5 years age category for their primary services.

Full-Time Daily Licensed Family Child Care Rates

As with licensed child care centers, daily full-time rates for family child care providers were calculated for each of the five DTP age categories. Table 8 presents the daily, full-time rates charged by licensed family child care home providers for the state of Illinois. Licensed Family child care provider rates are substantially lower overall than those of child care centers, and the range of available rates is also much smaller. On average, rates range from \$35 for 5 year old to \$41 for infants.

Table 8: Full-Time Daily Licensed Family Child Care Per Slot Rates by DTP Age Categorization

Child Age Category	No. Pdrs	No. Slots	Mean	95% Conf Interval (FROM)	95% Conf Interval (TO)	25th %ile	Med	75th %ile
Infants	1,554	2,174	\$40.26	\$40.19	\$40.43	\$35.00	\$40.00	\$45.89
Toddlers	1,551	2,399	\$40.02	\$39.85	\$40.19	\$35.00	\$40.00	\$45.89

**These Child Care Assistance Program (CCAP) rates went into effect July 1, 2022.*

Additional Fees Charged

During the market rate update, family child care providers of children 6 weeks to 5 years old were asked whether they had any additional fees that they regularly charged parents. Table 10 demonstrates that out of the 1,852 providers that responded, roughly 23% of all family child care providers charged a registration/application fee and approximately 27% required an additional deposit.

Table 10: Additional Fees Charged by Licensed Family Child Care Providers

Fees	N	Percent Total
Late Pick Up	1580	85.3%
Deposit Required	497	26.8%
Registration/Application	418	22.6%
Charges CCAP Difference	374	20.2%
Field Trips	265	14.3%
Transportation	219	11.8%
Materials/Supplies	56	3.0%
Meal/Snack Fee	20	1.1%

Note: Providers could give more than one response which is why this will not equal 100%

Availability of Care During Non-Standard Hours

The availability of child care during evenings, overnight and on weekends is important as many families have non-traditional work schedules. For the market rate analysis, a provider could be represented by more than one service if they met all of the inclusion requirements. The market rate sample includes 2,431 providers. Over one third (889; 36.6%) of the 2,431 providers were licensed to provide overnight care, which includes 621 (60.1%) providers in County Group IA, 219 (30.5%) providers in County Group IB, and 49 (7.2%) providers in County Group II. Only full-time services were examined for this analysis.

Licensed Family Child Care Group Homes

A family child care provider may be licensed by IDCFS as a group child care home provider if they serve no more than 16 unrelated children under the age of 12. This total must include the provider's own children. The actual number of children allowed is determined by the ages of the children. In order to qualify to serve the maximum of 16 children a caregiver must have an assistant and meet other IDCFS requirements. Table 11 presents the breakdown of the 432 licensed family child care group home providers by SDA.

Table 11: Breakdown of Market Rate Sample by Illinois CCR&R Service Delivery Area: Licensed Family Child Care Group Homes

Service Delivery Area	Number of Providers	Column Percent	Total Licensed Capacity, 6 wks to 5 years	Percent of Total Licensed Capacity	Mean Per Provider Licensed Capacity 6 wks to 5 years
1	11	2.5%	94	2.3%	8.6

Illinois	432	100.0%	4,023	100.0%	9.3

Note: Table represents providers reporting rates for at least one 6 weeks to 5 years age category for their primary service.

Full-Time Daily Licensed Family Child Care Group Home Rates

Daily full-time rates for family child care providers with group licenses were calculated for each of the five DTP age categories as was done with child care centers and family child care providers. Table 12 presents current full-time daily child care rates for licensed family child care group home providers for the state of Illinois.

Table 12: Full-Time Daily Licensed Family Child Care Group Homes Per Slot Rates by DTP Age Categorization

Child Age Category	No. Pdrs	No. Slots	Mean	95% Conf Interval (FROM)	95% Conf Interval (TO)	25th %ile	Med	75th %ile

**These Child Care Assistance Program (CCAP) rates went into effect July 1, 2022.*

Additional Fees Charged

The licensed family child care group home providers of children 6 weeks to 5 years were asked if they charged additional fees. Table 14 presents the additional fees charged by 343 of the 432 providers. Over one-quarter (29.7%) charge a registration fee while 33% require a deposit.

Table 14: Additional Fees Charged by Licensed Group Child Care Home Providers

Materials/Supplies	20	5.8%
Meal/Snack Fee	4	1.2%

Note: Providers could give more than one response which is why this will not equal 100%

Availability of Care During Non-Standard Hours

The availability of child care during evenings, overnight and on weekends is important as many families have non-traditional work schedules. For the market rate analysis, a provider could be represented by more than one service if they met all of the inclusion requirements. The market rate sample includes 432 licensed family child care group home providers with 199 (46.1%) providers being licensed to provide overnight care, which includes 177 (57.7%) providers in County Group IA, 17 (23.6%) providers in County Group IB, and 5 (9.4%) providers in County Group II. Only full-time services were examined for this analysis.

Licensed Providers: School-Age Children

Before and After School Programs

Providers were selected for the before and after school, school-age children sample if they accepted children before school only, after school only, or both before and after school, if they were actively providing care, if they were licensed, and if they accepted children ages 6 years or older. Unlike the sample selection process for child care providers caring for children 6 weeks to 5 years, selection of before and after school providers caring for children 6 years and older was not dependent on whether the provider accepted children on a full-time or part-time basis. Providers were excluded from the sample if they were not accepting referrals, if they did not provide data for before and after school programs, if they did not report license capacity (for child care centers) or enrollment (for family child care homes), and if they only offered summer programs.

As a result of these selection criteria, the total sample of before and after school programs for school-age children was 2,567 licensed providers. Of these, 648 were centers, 1,606 were family child care homes, and 313 were group homes. Tables 15, 16, and 17 show the breakdown of these providers who accept school-age children before and after school, by SDA. Table 15 presents the results for licensed child care centers, Table 16 presents the results for licensed family child care home providers, and Table 17 presents the results for licensed child care group homes.

Note: Table rows are hidden for SDAs that do not have more than one provider in the sample, but the statewide total row and column percentages are calculated based on the full sample of 313 licensed family child care group home providers with before and after school care.

Part-Time Licensed Before and After School Rates

Table 18 displays the rates for school-age children in child care centers, in family child care homes, and in family child care group homes. For before and after school rates, CCR&R staff are asked to record the rate as “full-time” if care is provided both before *and* after school 5 days a week, and to record the rate as “part-time” if care is provided only before school *or* only after school 5 days a week. In these analyses, reported part-time rates took priority, and full-time rates were cut in half if part-time rates were not given.⁸ These rates were otherwise calculated in an identical fashion to those rates for children 6 weeks to 5 years old.

Table 18: Daily Part-Time Rates, Licensed Before and After School Programs: School-Age Children

Program Type	No. Pdrs	No. Slots	Mean	95% Conf Interval (FROM)	95% Conf Interval (TO)	25th %ile	Med	75th %ile
Child Care Centers	649	16,314	\$18.71	\$18.59	\$18.84	\$11.51	\$18.50	\$23.00
Family Child Care Homes	1,607	4,702	\$16.47	\$15.35	\$15.66	\$13.00	\$17.50	\$19.45
Group Child Care Homes	313	1136	\$18.11	\$17.74	\$18.47	\$15.07	\$19.45	\$20.00

Tables 19, 20, and 21 display the full-time daily rates by county reimbursement group for each of the three samples who offer before and after school care for school-age children: child care centers, family child care home providers, and family child care group homes.

⁸ Note: Full-time rates were based on a 5 hour day and were only cut in half if the full-time daily rate was greater than \$5.

Table 19: Part-Time Daily Licensed Child Care Center Per Slot Rates by County Reimbursement Group: Before and After School Programs

Additional Fees Charged

Licensed child care centers, family home care providers, and family group home providers reported charging additional fees for school-age children. Table 22, 23, and 24 display these charges. Table 22 shows the additional fees charged by 614 of the 649 sampled child care centers. Table 23 displays fees charged by 1,226 of the 1,607 family child care providers in the sample. Table 24 illustrates the additional fees charged by 245 of the 313 sampled group family child care providers. Child care centers are more likely to charge a registration/application fee (77.2%), whereas only 23.8% of family child care providers and 30.2% of group family child care providers charge an additional fee for registration.

Table 22: Additional Fees Charged by Licensed Child Care Centers: School-Age Children, Before and After School Programs (Full- and Part-Time)

Fees	N	Percent Total

Availability of Care During Non-Standard Hours

For the market rate survey analysis, a provider could be represented by more than one service if the inclusion criteria for before and after school programs were met.

Of the 649 centers, 31 providers (4.8%) held a license for overnight care, which includes 24 (7.0%) providers in County Group IA, 6 (3.3%) providers in County Group IB, and 1 (0.8%) provider in County Group II.

Family care providers were more likely to offer non-standard hours for school-aged children than centers. Of the 1,607 providers, 692 (43.1%) were licensed to provide overnight care, which includes 519 (67.5%) providers in County Group IA, 142 (34.5%) providers in County Group IB, and 31 (7.3%) providers in County Group II.

Of the 313 family child care group home providers, 166 (53.0%) providers were licensed for overnight care, which includes 152 (67.3%) providers in County Group IA, 10 (22.7%) providers in County Group IB, and 4 (9.3%) providers in County Group II.

Full-Time Summer Programs

When school is not in session over the summer months, many school-age children are cared for in full-time summer child care programs provided by centers, family child care providers, and/or group home providers.

The sample selection process for the full-time school-age summer programs was nearly identical to that of the 6 weeks to 5 years of age sample, but this sample included providers who provided care only during the summer or year round (including the summer). The sample selection process resulted in a sample of 1,171 licensed providers. Of these providers, 382 were child care center providers, 677 were licensed family child care providers, and 112 were group child care home providers. Tables 25, 26, and 27 present the breakdown by SDA of providers in the market rate sample who offer full-time summer programs for school-age children.

Table 25: Breakdown of Market Rate Sample by Illinois CCR&R Service Delivery Area: School-Age Summer Programs Licensed Child Care Centers

**These Child Care Assistance (CCAP) rates went into effect July 1, 2022.*

Additional Fees Charged

The additional fees charged by the child care center, family home, and group home providers providing full-time summer care for 6- to 12-year-olds are presented in Tables 32, 33, and 34. Table 32 shows the additional fees charged by 362 of the 382 child care centers used in this sample. Table 33 displays the extra fees charged by 528 of the 677 sampled licensed family child care providers. Table 34 provides the distribution of 89 of the 112 family child care group homes in the sample that charge additional fees to parents.

Table 32: Additional Fees Charged by Licensed Child Care Centers: School-Age Children, Summer Programs

Fees	N	Percent Total
Late Pick Up	310	85.6%
Registration/Application	286	79.0%
Field Trips	203	56.1%
Charges CCAP Difference	146	40.3%
Deposit Required	96	26.5%
Transportation	47	13.0%
Materials/Supplies	47	13.0%
Meal/Snack Fee	2	0.6%

Note: Providers could give more than one response which is why this will not equal 100%

Table 33: Additional Fees Charged by Licensed Family Child Care Providers: School-Age Children, Summer Programs

Fees	N	Percent Total
Late Pick Up	460	87.1%
Deposit Required	127	24.1%
Charges CCAP Difference	110	20.8%
Registration/Application	95	18.0%
Field Trips	85	16.1%
Transportation	49	9.3%
Materials/Supplies	14	2.7%
Meal/Snack Fee	4	0.8%

Note: Providers could give more than one response which is why this will not equal 100%

Table 34: Additional Fees Charged by Licensed Family Child Care Group Home Providers: School-Age Children, Summer Programs

Fees	N	Percent Total
Late Pick Up	69	77.5%
Deposit Required	31	34.8%
Charges CCAP Difference	31	34.8%
Registration/Application	24	27.0%
Field Trips	22	24.7%
Transportation	19	21.3%
Materials/Supplies	4	4.5%
Meal/Snack Fee	3	3.4%

Note: Providers could give more than one response which is why this will not equal 100%

Availability of Care During Non-Standard Hours

Those providers who offered full-time care for school-age children during the summer did not offer very many non-standard services. Of the 382 child care center providers 16 (4.2%) had a license to provide care for children overnight, which includes 13 (6.7%) providers in County Group IA, 2 (1.8%) providers in County Group IB, and 1 (1.3%) provider in County Group II.

Family care providers appear to be more likely to offer non-standard services than centers. Of the 677 family care providers, 218 (32.2%) were licensed to provide overnight care, which includes 135 (69.2%) providers in County Group IA, 57 (29.7%) providers in County Group IB, and 26 (9.0%) providers in County Group II. For family child care group home providers, there were 112 providers of which 52 (46.4%) were licensed for overnight care, which includes 43 (69.4%) providers in County Group IA, 5 (21.7%) providers in County Group IB, and 4 (14.8%) providers in County Group II.

Market Rates Compared To Child Care Assistance Program (CCAP) Rates

One of the main functions of the Market Rate Survey is to analyze child care assistance rates (subsidized child care rates) to the market rates for the state of Illinois. States are encouraged to explore geographic breakdown of the child care market. In the state of Illinois the child care market is geographically separated into three reimbursement tiers represented by groups of counties. Group 1A includes the urban counties of Cook, DeKalb, DuPage, Kane, Kendall, Lake and McHenry. The eligible families in these counties receive the highest assistance rates in the state. Group 1B includes: Boone, Champaign, Kankakee, Madison, McLean, Monroe, Ogle, Peoria, Rock Island, Sangamon, St. Clair, Tazewell, Whiteside, Will, Winnebago, and Woodford counties. Families who live in a Group 1B county receive the next highest level of child care assistance. The final reimbursement tier, Group II includes all other counties in the state of Illinois. Families in this reimbursement tier receive the lowest rates of child care assistance.

Tables 35 through 43 display the maximum CCAP payment for child care centers, family home providers and family child care group home providers, before and after school providers (CCC, FCC, and group homes), and summer programs (CCC, FCC, group homes). The tables are broken down by county, by age of care group. For each segment, the total license capacity, and the 25th, median, and 75th percentiles of the market rate are presented.

The final column within these tables is the CCAP percentile. This column displays the percentile of available slots the maximum CCAP payment will cover, i.e., the percentage of rates in a given market that fall at or below the CCAP minimum rate. For example, a CCAP percentile of 75 means that the CCAP subsidy will allow a parent/guardian to choose from and purchase a child care slot from 75% of the available child care slots on the market. A 100.00 CCAP percentile means that using the CCAP subsidy, a parent/guardian can purchase any slot in the market. A CCAP percentile of 0.00 means that using the CCAP subsidy a parent will not be able to purchase any slots within a given market.

Please note that the samples in this section are varied due to missing provider data. Additionally, if there were less than 3 slots in a county for the type of care or age group, the data is not shown.

Table 35: CCAP Maximum Subsidies Compared to Market Rates: Licensed Child Care Centers, Children 6 weeks to 5 years old

Appendix A: Illinois Child Care Resource & Referral Service Delivery Areas⁹

⁹ SDAs 3 and 4 are combined for this report.

Appendix B: CCAP Rate Charts

This appendix includes the CCAP rate charts that were used in the analysis for this report, as well as the rate charts that were effective during the time period when the data were collected.

The CCAP rates used for the child care center analysis were effective July 1, 2022. The rates used for the family child care and family child care group home analysis were also effective July 1, 2022. CCAP rates during the time period when the data were collected were effective July 1, 2022 (October-December 2022). Table 1 includes rates for County Group IA, Table 2 includes rates for County Group IB, Table 3 includes rates for County Group II, and Table 4 includes rates for exempt programs.

Payment Rates for Child Care Providers - Effective July 1, 2022

The rates listed below are the maximum rates that the Department will pay per day, listed in order by provider type.

- For care provided less than 5 hours per day, use the part-day rate.
- For care provided from 5 through 12 hours per day, use the full-day rate.
- For care provided more than 12 hours but less than 17 hours in a day, use the full -day rate for the first 12 hours and the part-day rate for the remainder.
- For care provided from 17 through 24 hours in a day, use the full-day rate for the first 12 hours and the full-day rate for the remainder.

Group 1A Counties

Cook, DeKalb, DuPage, Kane, Kendall, Lake & McHenry

Appendix B, Table 1: CCAP Rates for County Group IA

Program Type	Under Age 2 Full Day/Part Day	Age 2 Full Day/Part Day	Age 3 and Older Full Day/Part Day/ School Age Day
Licensed Day Care Center (760)	\$64.00/\$32.00	\$51.00/\$26.00	\$44.00/\$22.00
License-Exempt Day Care Center (761)			\$39.00/\$20.00
Licensed Day Care Home or Licensed Group Day Care Home (762, 763)	\$45.89/\$22.94	\$42.76/\$21.38	\$38.90/\$19.45

Group 1B Counties

Boone, Champaign, Kankakee, Madison, McLean, Monroe, Ogle, Peoria, Rock Island, Sangamon, St. Clair, Tazewell, Whiteside, Will, Winnebago & Woodford

Appendix B, Table 2: CCAP Rates for County Group IB

Program Type	Under Age 2 Full Day/Part Day	Age 2 Full Day/Part Day	Age 3 and Older Full Day/Part Day/ School Age Day
Licensed Day Care Center (760)	\$61.00/\$31.00	\$48.00/\$24.00	\$41.00/\$21.00
License-Exempt Day Care Center (761)			\$33.00/\$17.00
Licensed Day Care Home or Licensed Group Day Care Home (762, 763)	\$41.04/\$20.52	\$38.15/\$19.08	\$35.02/\$17.51

Group 2 Counties

Includes all other counties not listed above

Appendix B, Table 3: CCAP Rates for County Group II

Program Type	Under Age 2 Full Day/Part Day	Age 2 Full Day/Part Day	Age 3 and Older Full Day/Part Day/ School Age Day
Licensed Day Care Center (760)	\$54.00/\$27.00	\$44.00/\$22.00	\$38.00/\$19.00
License-Exempt Day Care Center (761)			\$31.00/\$16.00
Licensed Day Care Home or Licensed Group Day Care Home (762, 763)	\$38.21/\$19.11	\$35.43/\$17.71	\$32.45/\$16.23

Payment Rates for Non-Licensed Care

All Counties

Appendix B, Table 4: CCAP Rates for Exempt Care

Program Type	All Children Full Day/Part Day
License-Exempt Day Care Home and Relative and Non-Relative Care in the Child's Home (764, 765, 766, 767)	\$21.09/\$10.54

Providers cannot charge the State of Illinois rates that exceed the maximum allowed by the State and rates that are higher than those charged by the provider to the general public for similar services. This includes discounts such as multiple child discounts, staff discounts, full-week discounts, pre-pay discounts, and sliding fee scales.

Appendix C: License-Exempt Child Care Rates

The following tables include data collected from those child care providers who are license-exempt and chose to be listed in their local CCR&R referral database. This is only a sample of the license-exempt providers in the state of Illinois and the extent to which these providers represent the population of license-exempt providers is not clear. Table 1 presents rates for children 3 to 5 years of age for child care centers. Table 2 presents rates for children 6 weeks to 5 years of age in family child care homes. Table 3 presents rates for children 6 to 12 years of age in child care center before/after school programs. Table 4 presents rates for children 6 to 12 years of age in family home child care providers before/after school programs. Table 5 presents rates for children 6 to 12 years of age in child care center summer holiday programs. There was too little data to include Table 6 for rates for children 6 to 12 years of age in family home child care providers summer/holiday programs. Limited data from providers has limited the number of SDAs listed in these tables.

Appendix C, Table 1: Full-Time Daily License-Exempt Child Care Center per Slot Rates: Children 3 to 5 Years

Service Delivery Area (SDA)	Age Group	No. slots	Mean	95% Conf Interval	95% Conf Interval	25th %ile	Med	75th %ile
1	Preschool	125	\$30.60	\$30.10	\$31.10	\$32.00	\$32.00	\$32.00
2	Preschool	205	\$27.44	\$26.39	\$28.49	\$23.03	\$25.33	\$37.00
4	Preschool	396	\$43.73	\$42.66	\$44.80	\$39.14	\$46.84	\$48.91
5	Preschool	1396	\$33.42	\$32.82	\$34.03	\$17.73	\$40.00	\$43.60
6	Preschool	160	\$39.81	\$39.39	\$40.23	\$37.50	\$39.00	\$42.00
7	Preschool	215	\$21.89	\$21.36	\$22.41	\$19.34	\$24.00	\$25.00
8	Preschool	100	\$23.26	\$22.94	\$23.59	\$22.45	\$22.45	\$22.45
9	Preschool	30	\$25.00	\$25.00	\$25.00	\$25.00	\$25.00	\$25.00
10	Preschool	155	\$28.79	\$26.79	\$30.79	\$20.22	\$20.91	\$49.23
11	Preschool	110	\$20.00	\$19.55	\$20.46	\$16.12	\$21.46	\$21.46
12	Preschool	84	\$12.13	\$10.85	\$13.41	\$9.39	\$11.20	\$11.20
13	Preschool	30	\$34.54	\$34.54	\$34.54	\$34.54	\$34.54	\$34.54
14	Preschool	1071	\$27.06	\$26.68	\$27.44	\$25.00	\$29.00	\$30.49
15	Preschool	75	\$28.67	\$27.88	\$29.45	\$30.00	\$30.00	\$30.00
16	Preschool	92	\$21.27	\$20.59	\$21.96	\$17.50	\$24.18	\$24.18

Note: A given SDA may not be represented in the table because rates were not available in the INCCRRA database for that SDA or no provider from that SDA met the criteria for inclusion in the sample. Rate data are not displayed if fewer than 3 slots. Limited data may cause confidence intervals to have a negative value.

Appendix C, Table 2: Full-Time Daily License-Exempt Child Care Home Providers per Slot Rates: Children 6 Weeks to 5 Years

Service Delivery Area (SDA)	Age Group	No. slots	Mean	95% Conf Interval From	95% Conf Interval To	25th %ile	Med	75th %ile
1	Infants and Toddlers	31	\$22.89	\$30.24	\$25.54	\$21.04	\$21.09	\$21.09
1	Twos	18	\$23.19	\$20.55	\$25.82	\$21.09	\$21.09	\$21.09
1	Preschool	120	\$22.34	\$21.53	\$23.16	\$21.09	\$21.09	\$21.09
4	Infants and Toddlers	30	\$68.10	\$64.20	\$72.00	\$70.00	\$70.00	\$70.00
4	Twos	7	\$57.14	\$34.83	\$79.46	\$25.00	\$70.00	\$80.00
4	Preschool	32	\$47.81	\$46.34	\$49.28	\$47.00	\$47.00	\$47.00
6	Infants and Toddlers	13	\$24.82	\$20.12	\$29.53	\$21.09	\$21.09	\$26.00
6	Twos	14	\$24.41	\$20.71	\$28.10	\$21.09	\$21.09	\$30.00
6	Preschool	17	\$23.97	\$20.58	\$27.37	\$21.09	\$21.09	\$30.00
9	Infants and Toddlers	4	\$36.25	\$24.32	\$48.18	\$32.50	\$40.00	\$40.00

Note: A given SDA may not be represented in the table because rates were not available in the INCCRRRA database for that SDA or no provider from that SDA met the criteria for inclusion in the sample. Rate data are not displayed if fewer than 3 slots. Limited data and widely reported rates may cause confidence intervals with a negative value and rates that may seem extreme.

Appendix C, Table 3: Full-Time Daily License-Exempt Child Care Center per Slot Rates: School-Age Before/After School Programs

Service Delivery Area (SDA)	Age Group	No. slots	Mean	95% Conf Interval From	95% Conf Interval To	25th %ile	Med	75th %ile
1	School-Age	603	\$11.18	\$10.90	\$11.47	\$8.50	\$8.50	\$16.00
2	School-Age	2,443	\$18.31	\$18.10	\$18.52	\$14.37	\$18.00	\$22.00
4	School-Age	5,278	\$12.84	\$12.59	\$13.08	\$6.91	\$9.21	\$19.00
5	School-Age	1803	\$18.25	\$17.91	\$18.59	\$13.77	\$22.50	\$22.51
6	School-Age	767	\$17.17	\$16.61	\$17.74	\$12.50	\$13.22	\$20.00
8	School-Age	1512	\$14.99	\$14.77	\$15.20	\$15.00	\$15.00	\$17.00
9	School-Age	470	\$15.68	\$15.28	\$16.07	\$10.00	\$18.00	\$18.00
10	School-Age	702	\$21.06	\$20.33	\$21.80	\$15.00	\$17.00	\$33.80
11	School-Age	104	\$17.80	\$16.98	\$18.63	\$16.00	\$18.00	\$18.00
12	School-Age	350	\$10.17	\$9.56	\$10.79	\$4.49	\$8.98	\$18.00
13	School-Age	205	\$17.43	\$17.25	\$17.61	\$16.00	\$17.50	\$17.50
14	School-Age	1505	\$9.26	\$9.04	\$9.48	\$7.50	\$7.50	\$7.50
15	School-Age	2,931	\$8.43	\$8.32	\$8.54	\$6.45	\$7.60	\$10.00
16	School-Age	65	\$11.69	\$10.86	\$12.53	\$10.00	\$10.00	\$15.00

Note: A given SDA may not be represented in the table because rates were not available in the INCCRRA database for that SDA or no provider from that SDA met the criteria for inclusion in the sample. Rate data are not displayed if fewer than 3 slots. Limited data may cause confidence intervals with a negative value.

Appendix C, Table 4: Full-Time Daily License-Exempt Child Care Home providers per Slot Rates: School-Age Before/After School Programs

Service Delivery Area (SDA)	Age Group	No. slots	Mean	95% Conf Interval From	95% Conf Interval To	25th %ile	Med	75th %ile
1	School-Age	166	\$11.63	\$10.91	\$12.36	\$10.54	\$10.55	\$10.55
6	School-Age	16	\$11.07	\$9.81	\$12.33	\$10.54	\$10.54	\$10.54

Note: A given SDA may not be represented in the table because rates were not available in the INCCRRA database for that SDA or no provider from that SDA met the criteria for inclusion in the sample. Rate data are not displayed if fewer than 3 slots. Limited data may cause confidence intervals with a negative value.

Appendix C, Table 5: Full-Time Daily License-Exempt Child Care Centers per Slot Rates: Summer/Holiday Programs

Service Delivery Area (SDA)	Age Group	No. slots	Mean	95% Conf Interval From	95% Conf Interval To	25th %ile	Med	75th %ile
1	School-Age	520	\$31.94	\$31.73	\$32.15	\$33.00	\$33.00	\$33.00
2	School-Age	860	\$34.03	\$33.55	\$34.51	\$28.00	\$38.00	\$39.00
4	School-Age	186	\$45.85	\$43.89	\$47.81	\$24.00	\$55.00	\$55.00
6	School-Age	386	\$26.73	\$25.97	\$27.50	\$21.97	\$21.97	\$39.00
7	School-Age	40	\$29.00	\$29.00	\$29.00	\$29.00	\$29.00	\$29.00
8	School-Age	150	\$45.00	\$45.00	\$45.00	\$45.00	\$45.00	\$45.00
9	School-Age	120	\$47.00	\$44.05	\$49.95	\$36.00	\$36.00	\$70.00
10	School-Age	119	\$34.69	\$33.50	\$35.88	\$31.40	\$31.40	\$35.00
11	School-Age	160	\$30.75	\$30.60	\$30.90	\$30.00	\$30.00	\$32.00
12	School-Age	20	\$25.00	\$25.00	\$25.00	\$25.00	\$25.00	\$25.00
13	School-Age	50	\$21.00	\$21.00	\$21.00	\$21.00	\$21.00	\$21.00
14	School-Age	330	\$28.79	\$28.51	\$28.51	\$26.71	\$26.71	\$32.00

Note: A given SDA may not be represented in the table because rates were not available in the INCCRRA database for that SDA or no provider from that SDA met the criteria for inclusion in the sample. Rate data are not displayed if fewer than 3 slots. Limited data may cause confidence intervals with a negative value.

Appendix D: Technical Note

The rates presented in this report are a function not only of the rate charged by each provider for a particular age group but also a function of the number of child care spaces or slots available for that age group for all providers serving that age group within a particular market. Thus, the mean rate is a weighted mean, with each provider's rate for a given age group weighted by the licensed capacity for children of that age group. Percentiles, moreover, are based upon weighting a given rate by the number of slots available at that rate, for a given age group, within a given payment region and then ordering the rates from lowest to highest.

By way of example, suppose there are two providers of infant care in a given region. One, Provider A, charges \$10.00 per day and the other, Provider B, \$20.00 per day. The simple mean of the two rates is \$15.00 ($(\$10.00 + \$20.00) / 2$ (providers)). However, Provider A has a capacity of 10 slots for infants whereas Provider B has a capacity of 20 slots. The weighted mean of the rates is \$16.67 ($(\$10.00 \times 10 + \$20.00 \times 20) / 30$ (slots)) reflecting the relative greater availability of rates at the higher \$20.00 price.

Likewise, a given percentile may also differ dramatically depending on whether it is calculated by provider or by slot. Suppose this time there are four providers of infant care. Provider A charges \$10.00 per day, Provider B \$20.00 per day, Provider C \$30.00 per day, and Provider D \$40.00 per day. Let's say we wish to determine the 75th percentile and do so based on a per-provider basis. Determined in this manner, the 75th percentile is \$30.00. On the other hand, if we choose to identify the 75th percentile considering the number of available slots for each rate, we may come to a different result. Suppose Provider A has one slot, Provider B two slots, Provider C three slots, and Provider D six slots. If you were to line up the rates of those 12 slots from lowest to highest and select that rates that determine where 75% of rates fall below, you would find that \$40.00 represents the 75th percentile.

The removal of outliers was done prior to each analysis for any cases that provided a capacity or enrollment value of 0, and for any daily rates that fell below the 1st percentile or above the 99th percentile. First and 99th percentiles were calculated for each age group within each facility type. Outlier values were compared to the previous report's values, and in any cases where the cut-off value seemed too large or too small, the cut-off value was adjusted to the next nearest percentile with an associated rate value (e.g., 91st or 82nd percentile). Outlier values were only adjusted above the 1st percentile or below the 99th percentile for 4 of the 27 age group/facility type combinations for licensed programs in this report, and for 5 of the 8 age group/facility type combinations for exempt programs (due to small sample sizes in exempt programs).
